- Usage: Living Room/ Bedroom/ Kitchen/ Bathroom
- Material: PVC
- Highlight: **Flame Resistant Home Pvc Wallpaper, home pvc wallpaper OEM**

Product Description

Flame-Resistant Self Adhesive Temporary PVC Wallpaper Accepted OEM/ODM

Product Description:

The **self adhesive pvc wallpaper** is made primarily of polyvinyl chloride (PVC), a synthetic plastic material known for its durability and versatility. We add a layer of pressure sensitive adhesive on the back of the pvc film and the liner paper, which is then removed before application. This adhesive is designed to bond securely to a variety of surfaces, including glass, metal, plastic, wood, and so on. This wallpaper can be made in a variety of thicknesses depending on the application and durability requirements, and it comes in a variety of finishes, including glossy, matte, satin, and textured finishes. The finish chosen can have a major effect on the appearance and feel of the material. Our self adhesive wallpaper is available in many colors and patterns, such as wood grain, marble, brick and more. It has a broad range of applications, covering walls, furniture, and more. Additionally, due to its ease of use, it is also a popular choice for various craft and DIY projects.

Features:

Product Name: **Self Adhesive PVC Wallpaper**

Style: **Self Adhesive**

Design: **Marble/Wood Grain/Brick/Stone/Plain Color, Etc.**

Thickness: **0.1mm-0.15mm**

Installation: **Easy To Install**

Adhesive: **Pressure Sensitive Adhesive**

Highlight: **Temporary Wallpaper, Removable Wall Sticker**

Technical Parameters:

Our products are various thicknesses from 0.1mm to 0.12mm, with widths of 1220mm and 600mm. We offer two length options, 50m/roll and 10m/roll.

Different designs are available, such as wood grain, solid color, marble, and brick. We also offer multiple surface treatments, including matt, super matt, embossed, high gloss and soft touch.

We provide custom services, including OEM, ODM and customization.

Applications:

Self-adhesive PVC wallpaper is a versatile and handy material that can be used for a number of purposes including enhancing your home, crafting works, making signage, and more. However, their application requires a specific process for it to come out perfect. Here's a guide on how to properly apply self-adhesive PVC wallpaper:

Materials you'll need:

Self-adhesive PVC wallpaper

A clean, smooth wall surface to apply the film

A measuring tape or ruler

A sharp utility knife or scissors

A squeegee or a credit card

A clean cloth or sponge

A spray bottle with soapy water (optional)

Steps for application:

Prepare the surface: Make sure the wall the PVC wallpaper will be applied also is clean, dry, and smooth. Get rid of dust, dirt, and any other imperfections. If it's dirty, clean it clearly and let it completely dry.

Measure and cut: Measure the dimension of the intended area to cover and add a few extra inches to each side for trimming. Cut the self-adhesive PVC film to the size you want by using a sharp utility knife or scissors. Be precise in your measurements and cutting for a better fit.

Peel off the backing: Peel off the backing paper from one end of the PVC film carefully. Avoid touching the adhesive side to prevent fingerprints and dirt sticking.

Apply the film: Begin applying the exposed adhesive side of the PVC film to the surface. Align it with the wall and start from one corner or edge. As you apply the film, peel off more of the backing paper gradually, smoothing the film on the surface.

Smooth out bubbles: If there are air bubbles trapped under the film, use the squeegee or credit card to gently push them out towards the edges. Work from the center outward to expel the bubbles.

Trim excess: Once the film is applied smoothly, use a utility knife or scissors to trim any excess film along the edges. Be cautious while cutting to avoid damaging the surface underneath.

Finish and clean: After trimming, go over the entire surface with a clean cloth or sponge to secure that the PVC film is firmly adhered and does not have any air bubbles or wrinkles. If soapy water has been used, remove any excess water or soap residue.

Final inspection: Check the surface to make sure that the PVC film is in place with no blemishes or problems. If there are any problems, lift the film carefully and reapply as needed.

Self-adhesive PVC film can be used for a wide range of applications, however, proper surface preparation to secure a professional-looking result is essential. Additionally make sure to follow the instructions provided by the manufacturer if you are interested in a different application.

Customization:

Self Adhesive PVC Wallpaper

Brand Name: Realsun Deco

Place of Origin: Foshan, China

Minimum Order Quantity: 3600sqm/model

Price: Negotiable

Our Self Adhesive PVC Wallpaper is a great choice for any home or office. It's an easy-to-install, adhesive wall covering that is perfect for accent walls, wall murals, and more. It is also a great choice for a removable wall sticker. This product is available in a variety of colors, and can be used in living rooms, bedrooms, kitchens, and bathrooms.

Packing and Shipping:

Packaging and Shipping for Self Adhesive PVC Wallpaper

Self-adhesive PVC wallpaper can be packaged and shipped in several ways, depending on the size and amount of the product being shipped. It is important to ensure that the product is safe and secure during transport.

If only a small amount of wallpaper is being shipped, it can be packaged in a cardboard box, with the wallpaper securely wrapped in bubble wrap. Larger amounts of wallpaper can be packaged in a large cardboard box, with the wallpaper securely bundled and sealed with tape. The box should also be secured with packing tape for extra protection.

For international shipping, it is important to use a reliable shipping service that includes tracking, insurance, and any customs or clearance documents that may be required. Most products can be shipped using standard couriers such as FedEx, UPS, DHL, or USPS. It is important to check with the shipping provider for any additional requirements.
